Science Fair Log book

By: Zainab and Lutfiyah 7B

Jan 10,21
First day of working on our science fair. Brainstormed ideas on what our topic will be. We came up with “Why Does Handwashing Prevent Infections?”.
Jan 11, 2021
We decided to settle with making our science fair topic “How Do Lifestraws Work?”.
Jan 12, 2021
We layed out the guidelines for our science fair, and also started with the rough copy of the introduction and hypothesis.
Jan 14, 2021
Today we finished up the introduction and formed the final hypothesis for our research topic.
Jan 16, 2021
Researched important information about our topic and started writing the research paragraphs 1-3.
Jan 19, 2021
Today we added an informational map related to our topic and started research paragraph 4.
Jan 20, 2021
Fully finished research paragraphs 3-4 and added resources/references for our research slides.
Jan 22, 2021
Today we analyzed our research and started our analysis slide.
Jan 23, 2021
Today we finished our analysis and conclusion slides. Also added another map about the worldwide water crisis and a video explaining the LifeStraw.
Jan 24, 2021
We reviewed our slides and later edited them and added more helpful resources we used. Additionally, we added a table of contents showing which part of our science fair is on which slide.
Jan 25, 2021
Turned in our science fair project along with a video of us explaining our project for round 1.
