

September 24, 2025: Looked and started on my psychological project on different facial emotions and physical behaviors with the main idea of how criminals can act or how psychologists and people can dissect and analyze different facial expressions to solve different cases.

September 30, 2025: Setting up slides and creating a template to put and organize on the tri-fold. I already have the tri-fold.

October 3rd: I have finalized my problem of different body languages that investigators should see. Also proving that psychology is probabilistic rather than determined. Working on a survey to ask people to further prove this point. Choosing ideas of 4 high profile cases of neutral emotions, lying, telling the truth, etc.

October 15th, 2025: Worked on Drug Abuse and different emotional and body languages to drug abuse or drug use while also adding the normal, constricted and dilated eyes (LATER REMOVED)

October 16th, 2025: I started reorganizing and adding all the slides with their designated titles, and started working on the purpose of the project. I then added and resized the culture affect and Acknowledgments to be smaller. I also decided to start and take pictures of real examples of eye diagrams. (Constricted, dilated and normal) as the examples I have are uncanny, weird and not on point

October 24th: Gained new technology to take diagrams of eyes, due to unnatural and unrealistic stock images I had gained before, looking at the image below

Image was too
big in print...

October 26th 2020: I worked on new cases as such as Ted Bundy's case was related to SA which is a sensitive topic and not enough camera evidence so as Susan Mellen. New cases are chosen are the following:

- Susan Mellen
- Obie Anthony (REMOVED)

Others are unsure at the moment
Also worked on the probabilistic and deterministic slide and finishing it off and relating it to psychology. Also making the template more rounded, and getting help from my sister for organization.

October 29th:

- Criminal psychology, meaning, cracked, done and refined.
- Refined titles template
- Worked on probabilistic vs deterministic and made the outline for the survey when it closes.

October 30th:

- Added the beginning outline of elements faces, eye cues, verbal cues, etc.
- Added the basis and overview of research

October 31st:

- Completed first part of research
- Refined criminology page

November 5th:

- Refined hypotheses and research - needs more summarization and simplified
- Completed purpose
- Worked on acknowledgments

November 7th:

- Closed the survey and started working on it on the slides
- Refined case studies and close out controlled (truth/involvement)

November 29, 2025:

- Added outline slide
- Replaced purpose page - rewrite + completed
- Added further steps and improvements slides / applications to how my study can help investigators in the future and address different points in my speakers notes.

November 30, 2025:

- Added More to the purpose page and fixed up the outline page
- Added innocent and guilty title to the overview page (common differences between innocent and guilty)
- Also tweaked the research page to be more research than outline.

December 1st, 2025:

- Rechecked criminal - psychology part and added the ending sentence to it, rechecked the info and added more citations
- sorted this layout better
- Added more to purpose
- Susan mellen
- Chris walk
- Mae images + info to analysis / differences between behaviours
- found this out for you psychology and is backed by real organizations
- completed all Abstract
- bright letters and made black

December 2nd:

- worked on Susan mellen
- started Ryan Ferguson case

December 3rd:

- Added more edits to Susan mellen and Chris walk cases
- Added probabilistic aspect to rehearsal page

December 4th:

- Added and edited, some improvements/applications
- Fixed titles and dimensions

December 5th: Cut letters

December 6: Finished letters and

December 7:

- Glued all the letters

December 8: Printed and cut all non colored slides, glued them

December 9:

- Printed and cut up all colored slides
- Glued
- Completed triad
- Worked on script.

December 10:

- Worked on script/flashcards

December 11th, 2025 + December 12th, 2025:

- Presented
- Made it from class science fair to school science fair

December 13th:

- Changed the word 'Criminology' from black to red

December 14th:

- Added a blood like paint effect over the triad

December 15th:

- Summarized research page and hypothesis to have less words but longer version will be readed if I make it to CYSF, inshallah.

December 16, 2025:

- Added more color
- Practiced script much more + practiced more questions
- Received feedback from Mr. Bosman and applied it
- As I did, I compacted the left side of the tri-fold, added more color, got my younger brother to paint hands on my tri-fold to make it more criminal looks and got permission from Gabby and Neem to "steal" the look.
- Received feedback
 - Added new ethics and consent page
 - New Nobs or flashcards
 - More in-depth
 - Contradictory
 - Etc
 - New acknowledgements - them, Gabby, Mr. Bosman and Yusuf.

December 17th, 2025:

- Did my presentation
- Won 1st place!
- Received trophy and medals.

February 2nd, 2026:

- Finished applying/registering into the CYS F- platform
- Later got approved and started editing

February 10th, 2026:

- Worked on the large header for cysf platform
- Finished main ideas

February 13th, 2026:

- Polished large header
- Polished project image
- Changed the following
 - Citations
 - Acknowledgements
 - It took less
 - Reworded a lot
 - Organized basis of the outline
