

# St. Joan of Arc Science Fair Log Book

The content of your Log Book should include a brief summary of what you do each day on your project. This can include a list of topics/questions you are choosing when deciding what to do for your project. A list of websites used, background information you may have, results of an experiment. It does not have to be super detailed as its purpose is to show the progression of your project.

## Student Name(s):

\*Only one Log Book is needed per group.

<b>Date:</b>	<b>Summary of what you worked on:</b>
Jan 22	Today I decided on my questions. I chose what is the most effective alternative for filtering water?
Feb 20	Today I found out that rural areas struggle with dirty water. I also found out that iodine purifies water. I found out why rural areas have dirtier water. Another thing I found out was how stones can take out the big bacteria, and the small.
Feb 21	Today I found out how iodine purifies water. I found out that fine-grained rocks are very good at filtering water. I also found out what the most eco-friendly way to filter water, then I found the least costly. Finally I found my solution.
