

LOGBOOK 24-25

Date	What I Worked On
11/23/24	Deciding what I will base my project around (higher dimensions), and laying out basic research in a doc.
11/ 26/ 24	Still worked on formatting and grammar. <ul style="list-style-type: none"> ● My Ethics Due Care 2a was accepted ● I continued researching
11/29/24	I started to add to my research section. Primarily about dimensions as a broad term.
12/8/24	Finally finished the background research. <ul style="list-style-type: none"> ● Began working on the subject of matter
12/9/24	I worked on the 4th dimension proof.
12/13/24	Continued my research portion, I still have quite a long way to go before I can be “done”! Although, I did work on some other things such as the: <ul style="list-style-type: none"> ● Problem ● Method ● Acknowledgements And obviously the research section, but you probably already know that.
1/7/25	Added more research
1/15/25	Started delving more into the actual theories surrounding the idea of higher dimensions (i.e Kaluza-Klein theory, string theory, M-theory, et cetera). However, today I specifically started with Kaluza-Klein theory (5th dimension). I plan in the near future to start going into the controversies of these theories! That would be fun.

Date	What I Worked On
2/04/25	Proofread my research pages. Planning on completing it soon.

2/11/25	Completed Kaluza-Klein theory
3/5/25	Retrieved the trifold
3/7/25	Started to plan the design of the trifold
3/10/25	Initiated the major parts (not fully complete)
3/11/25	Kept working on trifold and refining information on the website
3/12/25	Finishing the rough draft of my trifold
3/13/25	<p>Science fair practice takes place in the school. I received pretty valuable feedback, so here are some new additions I need to do:</p> <ul style="list-style-type: none"> ● Add more imagery to the trifold ● Make my trifold generally more visually pleasing ● Practice speaking to the judges (maybe a script will work?) ● Have more clarity in my words (lots of unintelligible muttering)

Date	What I Worked On
3/14/25	Tore everything on my old trifold apart. I'm going to try and make it a bit better, since it is currently very bland
3/15/25	<p>Started working on a script in order for my presentation to be less quiet and unprepared. Also began to reconstruct my new trifold with a bit more vibrant colours.</p> <p>Tomorrow I plan to print a coloured image at the library. Visuals are a key in the presentation.</p>
3/16/25	Finally finished my trifold. A bit ugly, but what's done is done.
3/19/25	Added more to my script
3/20/25	Made some finishing details to my online CYSF

	platform.
