

LOGBOOK!

*By: Yusuf Elsayed and Alex Zhang
For the science fair*

November 22 2:00 - 5:00

This was our first day together. What we did was set up a way to chat and call each other, and kind of decide what we were going to do for our project. We are planning to do a research topic about plants.

November 24 5:30 - 6:00 and 6:45 - 7:30

In this work period we setup our free days and our not free days and got a rough idea of what we will do. We are planning to do an experimental project about plants in the winter, and how different plants survive. We did the proposal and are waiting for CYSF to text back.

November 29 2:15 - 3:15

In this work period, we researched about our project and put the information into our slides. We also added citations and fun facts into our slides. We almost finished two slides of just background research and 3 and a half slides of citations. The CYSF still hasn't texted back, so we are putting all the information in the slides that we made.

November 30 5:30 - 6:15 & 7:15 - 7:45

We continued researching and adding information to our slides. The CYSF still didn't email back, so we're still using the slides. We made new slides to organize our information as well as a 2nd citations slide. We each made a background research page and more specific research pages. We made the title page of our slides look really cool.

December 1 4:45 - 6:00

CYSF texted back and we worked on the website. We also researched on the slides. We added a lot of information to all of the slides and made a few new ones like a fun facts #2. We put heaps of information on both new and old slides. We did the ethics due care 2A thing on the CYSF website.

December 4 4:30 - 6:00

We worked on the CYSF platform for a while (by transferring information from our slides to the CYSF platform), but they kicked us out, so we had to continue working on our slides. We set up a few more meetings and playdates. We finished most of our slides, meaning that we made them look really cool and nice with pictures and everything.

December 5 4:30 - 5:30

We are going to research and put some more information on the slides and add pictures. The CYSF platform still is not letting us in our project so we can't add anything over there.

December 6 2:00 - 6:00

This was a playdate, and we changed our topic a little bit. The CYSF still hasn't emailed back, so we kept on adding information and citations to our slides. We also made all of the slides look really cool so when we attach it to the CYSF platform, we get extra marks for cool looks.

December 8 4:30 - 5:30

We changed our topic again. We set up a few more meetings and another playdate. We added information to our slides and are still waiting for the CYSF to email back and let us on the platform again. Since we changed our topic, we deleted and added a few slides to fit our topic better.

December 11 4:30 - 5:30

Today we got back on the CYSF platform and continued putting information in the platform. We also kept on putting information on the slides and making the slides look cool.

December 15 4:30 - 5:30

Today we talked a lot about our project and added some stuff into the CYSF website and the slides.

December 18 4:30 - 5:30

We planned a lot for the rest of the month and added the slides more. We moved a lot of the information to the CYSF platform.

December 20 2:30 - 5:30 (only Alex)

Researched a lot and changed topic a little. Yusuf got sick.

December 23 4:30 (only Alex)

Bought the plants and took some notes on them.

December 26 5:00 – 5:30 (only Alex)

Yusuf was sick so Alex worked on the slides, made them look better, added more information about the plants we have and researched some more, added a lot of new slides.

December 28 10:30 – 11:00 (only Alex)

We researched even more, studied the plants, and made the slides look better. We also added a few new slides.

December 30 5:00 – 6:00

Yusuf was better and we had our first meeting in a long time. Yusuf added the new information into the CYSF website while Alex added more to the slides.

January 3 2:20 – 5:30

Today was a playdate. Yusuf and Alex studied the plants, and got a whole bunch of stuff done. Alex helped add stuff to the slides and Yusuf took the stuff from the slides to the CYSF website. Alex took today's time to research the NASA website to figure out some good information.

January 12 4:30 – 5:30

We helped add more information and we planned our next experiment. Yusuf found some really good sites for jungle and aquatic plants and on jungle plants.

January 15 4:40 – 5:30

We planned some more of our meetings & researched some more. We added a lot more information on the CYSF website. We also added more information on the land plants.

January 17 2:00 – 6:00

This was a playdate and we change the slides a lot. We also made a new presentation for our script and booklets of information.

January 19 4:30 – 5:30

We made these booklets that we are going to print, and Yusuf helped on the slides more.

January 21 (yusuf only) 5:30 - 6:30

Since Yusuf had to cancel a meeting, he worked for an hour today. He moved a lot of information to the CYSF and absolutely destroyed the script.

January 24 2:15 - 5:30

This was a playdate and we planned which slides are going to be on the trifold and added information.

January 26 4:30 - 5:30

We had a meeting and planned a lot of our next meetings. We added some more information to the booklets too.

January 29 4:30 - 5:30

We added lots of pictures and stuff to the slides.

February 2 4:30 - 6:00

We added lots of information to the slides, and Yusuf helped to the script. We also made new meetings

February 5 4:30 – 5:00 & 7:30 – 8:15

We worked really hard this meeting to get our goals clear, to plan our trifold more, & to verify our playdate. We also worked on our slides and our booklets #2.

February 6 3:00 – 5:30

This 2 ½ hour long playdate was used to make a rough draft on our trifold, finish up the script, and finalize some information on the slides.

February 7 5:00 – 5:30

Yusuf had to go mid meeting so before that we worked on booklets and trifold.

February 8 6:00 – 7:00

We worked on the script and CYSF.

February 9 4:20 – 6:00

Finished everything up, and worked really hard on the script.

February 12 10:00 – 3:00

Put the slides on!!!!

February 13 10:00 - 12:30:

Worked and almost finished everything on the trifold. Also practiced the script.

February 16 10:15 - 4:15:

We finished EVERYTHING. Were finally and fully DONE.

February 20 9:30:

WE GOT INTO CITYYYYYYYYYYYYYYYYYY!!!!!!!!!!!!!! YIPEEEEEEEEEEE

February 21 4:00 - 4:30:

Planned some more meetings for the future and set goals for our future meetings and playdates.

February 22 4:30 - 5:00:

Researched.

March 2 4:30 - 5:30:

Planned more meetings and researched about some different topics.
