

Name	Sohaib Ehtisham
Grade	Grade 8
Project Title	How Good Is AI at Catching Phishing Emails?

Date	Information / Data / Accomplishments
November 30, 2025	I found the topic and project I wish to pursue
December 5, 2025	I finished my Basic Project Info and Ethics Due Care 2A forms
December 6, 2025	I finished my hypothesis as well as my research
December 9, 2025	I added my research as well as my hypothesis onto the CYSF platform
December 30, 2025	I added my variables onto the platform and created the table which I will put my data into.
December 31, 2025	I finished adding the data for the AI's phishing email percentages, both trained and untrained, which means, 50% of my data table
January 1, 2026	I finished my data table which I finished the real email percentages, both trained and untrained
January 2, 2026	I added my procedure, observations, and analysis to the platform
January 3, 2026	I added my conclusion, application, sources of error, citations, and acknowledgment to the platform
January 4, 2026	I finished my slides and script and printed them out
January 24, 2026	I received feedback on my slides by my science teacher and improved my slides and information
January 26, 2026	I uploaded my video and pdf on the platform and finished my project
