

Log Book

November 29, 2025 Hypothesis :

- We discussed about our hypothesis and how to write it
- After that we wrote our hypothesis and edited it
- Lastly, we combined our hypotheses together and finalized it then posted it onto the CYSF website

December 5 - 10, 2025 Research :

- We did a lot of research in general about our project and went on some websites that ChatGPT listed as citations to collect information and answer some questions we had about our project
- After that we sorted the information we got into different sections so it can be easier to write paragraphs
- We wrote deleted some information that was not needed so we didn't get distracted

December 14 - 17, 2025 Writing :

- We transformed the information we got into 2-4 paragraph essays
- We generated some images from ChatGpt to put onto our trifold so it has colours and looks better
- We made a excel to put collected data of our experiment on

December 18 - 20 2025 Testing & Organizing :

- We started to get some participants to do testing
- We also worked on applications and sources of error some more
- In addition to that we also got our trifold on the 18th and we started to plan about how we should organize our it

December 29, 2025 Variables :

- We took a 9 day break from science fair because of Christmas but we were back in action on the 29th of December
- On this day we made a list of people who were willing to do testing and got some more testing done then put the info onto excel
- We also finished our variable and did some research on them

January 3 - 10, 2026 Finishing of Online Project :

- We attached all our writing and finished up editing
- All that we needed to finish was attaching our online pictures and videos
- We checked with our science fair operator if our online project was finished, she checked and said “Everything is good except you guys need the video and the photos.”

January 15 -20, 2026 Printing :

- We went to the crowfoot library throughout these days to print out the paper and glue them onto our trifold
- We recorded our presentation and took 2 photos
- We uploaded them onto the online project and now its finished

January 24-26, 2026 Judges Q&A :

- We thought of a list of questions that the judges might ask
- We reviewed it and tried to memorize most of it
- We also removed some questions with obvious answers so we had less pressure on memorizing stuff

January 30, 2026 Finishing Everything :

- The science fair day is edging nearer and nearer so we have to wrap things up
- We concluded everything with a final check
- We also finished writing our log book and now we are done with everything!
