

Nov 27 2025: Pick my decorations 3:50 - 4:30 I did green and gray, green because it looked good and gray because that's the color for brain cancer. Also i looked for thing that will make the board pop out  

Nov 28 2025 - Nov 29 2025: Put all titles, 3:40-4:10, I looked at Problems I had were couldn't think of ideas 

Nov 30 2025: Did introduction & What is brain cancer? 4:45- 5: 40. What I learned is that Brain cancer actually starts from a tiny tumor and starts to grow, I thought that it started as cancer **!** Also Problems I had were just too much writing.

Dec 1 2025: I decided that I was going to put dinosaur and brain cancer symbols! No problems faced 

Dec 2 2025: what occurs is cancer 3:40- 4:10 and what i learned is Radiation exposure - especially strong radiation to the head. 🌟

Dec 4 2025: added a hypothesis slide. 5:20- 5:50. I researched what a hypothesis was because I didn't know what it was. Problems I had were that I didn't know how to spell hypothesis. 😺

Dec 6 2025: today I added my hypothesis slide. 5:25- 5:35 I wrote 3 reasons why I don't think they have a cure. Things I learned was that your emotions don't come from your eyes or just a gut feeling. They came from your mind!?! Fortunately no problems were faced. 🧠

Dec 7 2025: Today I decided that I am going to put little bunnies for decoration.8:45- 8:55Problems I had were there were bunnies and bears only but there were only 4. 🐻🐰

Dec 7 2025 Accidentally deleted the whole thing, it wont let me go back. 8:56- 9:35. 10:25-11:01.

You know the problem, learned the same things.

Dec 8 2025: started stages 11:00- i got sick.

Dec 12 2025: got better finally finished. 9:31, things I learned were stage 4 may be cured but it is very dangerous and life threatening.

Problems I had were it kept deleting the lines.

Dec 14: Today I started working on side effects 10:29 - 11: 12. No problems faced and I learned that you can face hallucinations when being in stage 4 cancer! 🤔

Dec 16 2025: today i decided to look at more decorations 5:01- 5:20 didn't find anything. 🏠

Dec 18 2025: Today I worked on my Research project planning page. School hours. I did the basics and did what the teacher said. Problems I faced were I forgot what to do for most of it.

Dec 20 2025: 9:50- 10:03 Today I worked on the planning page again and I didn't know what to put for the research part. So I just put what I thought I should put. 

Dec 20 2025: 10:04- 10:31 I also did how will the next years look. I learned that it depends on where the brain tumor is located. No problems faced 

Dec 24 2025: 1:28- 2:06. Today I did, is there a cure and it turns out no there is no cure. The problems I faced were that there were no links and the video was long so I summarized it. 

Dec 28 2025: today I wrote the title of how we can get better, 4:17- 4:30. Also today I'm writing about nutrients and diet 8:05- 8:13 Red meat turns out to be processed food !?! No problems faced 🍌

Dec 29 2025: Today I started physical activities. 9:00- 9:19. Even a 5 minute walk is beneficial. No problems faced. 😊

Dec 30 2025: Today I started rest and sleep. 11:00- 11:45. I learned that sleep is like a battery for the brain. Again no problems faced. 😊

Dec 31 2025: Today I started to see if my hypothesis is correct. 9:05- 9:35 it is!!

2026

Jan 9 2026 - Jan 15 2026 : today i decided to take out the cure part and add a way to slow it down. I changed almost all of the presentation

but it was worth it. I decided to focus on 3 brain cancers and not talk about a bunch of random side affects. I decided to focus on glioblastoma, Oligodendroglioma, and ependymoma.

Jan 29 2026: in school today we filled out the cysf worksheet. Dont have exact time, It was way more writing than last year. I also worked on my logbook a lot because I had so many mistakes. 👍

Feb 3 2026: 5:30-6:21 Today I worked on glioblastoma and I found out in=ts not only one of the most common brain cancers but that it's actually one of the deadliest brain tumors. 😞

Feb 12 2026: today i sketched all the trifold like where this will go and where that will go because when i glue it i might glue it on wrong

Feb 14 2026: Today i went to my friends house (shes 24) and i asked her bout it and she told me a story

Feb 15 - Feb 16 2026: today i decided i was going to add the story and start ependymoma I learned that treatment actually did help him.

Feb 18 - 20 these days i worked on the log book because i forgot it existed. I worked on it but I remembered most of it. I wrote dates not really times but I wrote a lot because I remembered and made a plan.

Feb 27 4:20 - 4:55 took a longtime to print because all of the papers kinda got jammed and 5 of them didnt print.

Feb 28 all day at random times i glued and sticked i mae it look very nice problems i faced is i ran out of glue and the other glue had no stick.

May 1, 2026 i was admiring it 😊
