

Loa Book

Nov 15 - first class at Lunch time

- Chose partners. Alina and Klara.

Nov 21

- had another class and figured out what we were gonna do and started researching some stuff we also filled out some forms.

Some ideas we had were make a tornado, make a volcano, how to survive all natural disasters or can we build a house that could withstand an earthquake.

~~scribble~~

Dec 11

- We had another class and did some more research
- We research some things like what are some materials you can use to absorb the vibration in a house and what are some good materials you can use to build the house.

Jan 17

- Started our logbook
- Went over the CYSF Rules and instructions
- we filled out some stuff on CYSF

Jan 31

- we called after school and planned we were gonna ~~build~~ build 2 houses and put 150 grains of ~~rice~~ rice on top of a sticky note and use a massage gun to replicate a earthquake and on ~~the~~^{one} house we are gonna use sponges to absorb the vibration. we are also gonna use pipes to put the massage gun in.

Feb 15

- Klara came to my house ~~with~~ ~~with~~ plan materials
- made a list of material we needed.

→ next page for the rest of Feb 15
